SOUTER TRADING

Souter Trading was formed in 1996 by Christopher Souter, former shipowner in Newcastle upon Tyne in the UK and Deryk Timms, Managing Director, from their days at the UK's biggest shipbuilder Swan Hunter. The company serves as a BUYING HOUSE in the UK and Europe for overseas companies requiring SPARE PARTS for British and European equipment in the following fields:

Oil and Gas

Power and Gas Utilities

Marine and Shipping Industries

Mechanical and Industrial

The company has processed thousands of orders for spares to customers worldwide for both just-in-time requirements and stock situations, meeting urgent deadlines for sailings, off-hires and down-time emergencies. Upstream and downstream, on-shore and afloat, these are our areas of expertise, efficiency and swift action. With our unique database of resources and contacts, developed over many years, we locate the parts you need from our worldwide suppliers and deliver them directly to you, wherever you are, through our preferred carrier UPS or your stipulated freight agent.

Souter Trading has ISO9001:2008 accreditation from Lloyds Register.

Key benefits of Souter Trading's service include:

- You pay only 1 supplier, Souter Trading, avoiding many differing payment terms and conditions.
- Full after-sales support, including supporting makers' guarantees.
- We kick suppliers to deliver on time, you don't have to.
- Our ISO9001/2008 accreditation ensures our experienced staff will handle your requirement with competence and efficiency.
- We enable you to concentrate on your own core competencies.

All large organisations need a Souter Trading, striving to locate the unfindable, track down the obsoletes or offer alternatives, and also kicking suppliers to get your goods to their destination on time and in the most cost-effective way.

With long-standing client relations across the globe, including Russia, India, South Africa and Hong Kong, Souter Trading is only a telephone call or email away and we look forward to helping you through your latest spares-based emergency.

CERTIFICATE OF APPROVAL

This is to certify that the Quality Management System of:

***Souter Trading International Ltd
Jesmond, Newcastle upon Tyne, Tyne & Wear
United Kingdom***

*has been approved by Lloyd's Register Quality Assurance
to the following Quality Management System Standards:*

ISO 9001:2008

The Quality Management System is applicable to:

***Procurement and supply of Industrial, Engineering
and Electrical Accessories and Spares, typically for the
Oil and Gas sectors, Nuclear and Conventional Power
Generation Utilities, and Ship Spares.***

Approval

Certificate No: LRQ 0961003

Original Approval:

Current Certificate:

Certificate Expiry:

J Brown

Issued by: LRQA Coventry

This document is subject to the provision on the reverse

This approval is carried out in accordance with the LRQA assessment and certification procedures and monitored by LRQA.
The use of the UKAS Accreditation Mark indicates Accreditation in respect of those activities covered by the Accreditation Certificate Number 001
Macro Revision 10.1
